

P946 - P3 Particle Filter Universal Thread (Pk6)

Collection: Respiratory Protection

Range: PPE

Materials: ABS

Inner Pack: 6

Outer Carton: 6

Product information

The filter P946 is a particle filter that protects against dusts. It is equipped with a standard DIN thread connection according to EN 148-1 and can be used with full face masks equipped with the same standard connection. This filter is a P3 R type and protects against toxic substances such as particles and microorganisms.

Respiratory Protection

The Portwest industrial range of disposable and reusable respirators includes Half Masks and Full Face Masks designed to offer the most comfortable and best fitting products in the marketplace. Conforming to EN standards EN149 (Particulate Filtering Half Masks), EN140 (Half Masks) and EN136 (Full Face Masks). Complete with a full range of interchangeable filter options on the Half and Full Face Mask styles. EN14683 (Medical Masks) and 2 or 3 layer Fabric Face Coverings with antibacterial styles are also available within the range.

PPE

Portwest Head PPE range applies the latest standards to deliver the highest level of protection. Comfortable and lightweight, the PPE range will ensure a pleasant wear, even for long periods of use. Your safety is our mission.
