

Traffi®

THE HAND PROTECTION SPECIALISTS

TG1895

The TG1895 is a cut level A lightweight latex/nitrile blended polymer water resistant glove. The dip coat extends generously to the wrist for comfort and secured fit, whilst providing protection from wet and oily substances. The matt surface texture finish on the palm further enhances grip.

Key Features

- Double dip nitrile and latex blended coating offering enhanced grip
- Generous knit wrist for comfort and to ensure a secure fit
- Protects the hand from dirt and debris.
- 15gg knitted liner for increased dexterity

Ideal for

- Waste
- Utilities
- Construction
- Mining
- Property Maintenance
- Landscaping
- Facilities management
